Bus stop times are computer-generated approximations and stop times will vary based on students using the service. To ensure that adequate maintenance staff is available for any mechanical problems that may arise during the routes, the length of after school activity routes are limited and additional bus stops are generally prohibited. Parents assume the responsibility for meeting their child at established express bus stop locations, if they choose to utilize the after school activity bus service. If a student is suspended from the bus for discipline reasons, the suspension extends to after school activity bus service for the period of the suspension.
